Citizens of Ecorse,

Due to an enormous amount of snow expected on Thursday, February 3, 2022 & Friday, February 4, 2022, the City of Ecorse D.P.W. will be clearing the streets from curb to curb. Please adhere to the Declaration of Snow Emergency rules (*Refer to Section C*). **Please park on the odd address side of the street on the first day, then park on the even address side of the street on the second day.** If you DO NOT have a driveway, please ask a neighbor or use the closest side street to you, until clearing your street has been completed. Doing this will eliminate your vehicle(s) being ticketed or towed. Please work with us during this snow emergency to ensure the streets being cleared in a timely manner.

Sec. 22-224. – Declaration of Snow Emergency

- (a) The mayor of the city and/or director of public safety, or their designees, are hereby authorized to declare a snow emergency in the city when there is a snow accumulation and/or the weather conditions are such that such a declaration is necessary in order to carry out the purposes of this article. Posting and notice of the declared snow emergency shall be provided through all methods of public announcement available and deemed appropriate.
- (b) The snow emergency shall remain in effect for those streets and areas so designated within the city for the period of time set by mayor of the city and/or director of public safety, or their designees, or until the particular street or area has become substantially clear of snow and ice from curb to curb for the length of the entire block, whichever occurs first.
- (c) **Unless otherwise designated, parking on all streets shall be limited to the side with odd addresses on the first day of the declared snow emergency, and parking limited to the side with even addresses on the second day of the declared snow emergency.**
- (d) "Streets and areas so designated" shall include any street which has a snow emergency sign or which has been announced as a designated street by public announcement.
- (e) It is the responsibility of the public to take notice when a snow emergency is announced or posted. The public is presumed to have notice when the declaration is provided through methods of public announcement.

(Ord. No. 15.08 , 2-3-15)

Thank you

City of Ecorse, D.P.W.
